1. Course Content and Online Delivery Mode of the Live Webinar on Ethical Hacking

Ethical hacking is used for hacking performed by a company or individual to help identify potential threats on a computer or network. An ethical hacker attempts to bypass system security and search for any weak points that could be exploited by malicious hackers. This information is then used by the organization to improve the system security, to minimize or eliminate any potential attacks.

The course content delivered during the session is as follows:

1. Hacking Methods
2. Password Hacking
3. Duplicate website identifying
4. Character Map
5. Full screen API
6. Cain and Abel - Demo

The participants were provided with the slides, which was streamed online in YouTube.
