Report

On January 31, 2019, Assistant Professor Y.K. Shinde conducted a workshop titled "Business Guide" aimed at providing practical insights into the working of business management. The workshop emphasized strategic planning, market analysis, and financial management. Students gained valuable knowledge on effective business practices, including resource allocation and risk management. Professor Shinde's expertise and interactive teaching style facilitated an engaging learning environment, enabling participants to grasp complex concepts with ease. Overall, the workshop served as a good opportunity for enhancing participants' understanding of essential business principles, equipping them with skills crucial for success in the corporate world.

* The importance of physical exercise *

Each of us has a physical body made of muscles, blood, bones and various other living tissue. When any of these are injured or not working properly then we get ill. Nobody likes to be ill. So it is important that we keep our body healthy.

Exercising the body is one way of keeping it healthy. If we do not exercise then our muscles become weaker and we are less able to do things properly. Also the bones can become weaker and thus break easily.

There are many types of exercises that we may participate in. We may play badminton, football, netball or whatever games that we prefer. We may also jog, walk, swim or climb a mountain. Older folks prefer less strenuous exercises like Tai Chi, Yoga or a leisurely stroll in the park. For the really fit young people, there are rock-climbing, gymnastics and other physically demanding activities.

We exercise to keep the body healthy. However there are some who overdo things and end up injuring themselves. It is fine to jog for a few kilometres. It is madness to jog until we are exhausted. Also they are people who become addicted to their exercises. They become unhappy when they are unable to exercise or when they lose to someone in a competition.

Exercise is important. No exercise may result in a weak body. Too much exercise may result in injury. Neither extremes are good. It is up to us to be sensible in exercising.

Importance of exercise in our life.

"Physical activity or exercise can improve your health and reduce the risk of developing several diseases like type 2 diabetes, cancer and cardiovascular disease.

Physical activity and exercise can have immediate and longterm health benefits. Most importantly, regular activity can improve your quality of life.

Exercise helps us to revive and recondition our full body. It helps us to make our muscles strong. Exercise also prevents obesity or helps in losing the weight. It maintains youthfulness and delays the process of aging. Exercise improves the functioning of the cardiovascular system and prevents the cardiac diseases. It strengthens our immune system and prevents diseases. Exercise improves our mental fitness and prevents insomnia and depression. Exercise is good for the heart and also reduces the risk of developing type 2 diabetes and also the risk of certain cancers.

Doing exercise is very important for our proper health and fitness. Physical exercise are required in each and every sphere of life.

Life Importance of exercise in our

Doing exercise is very important for our proper health and fitness. Physical exercises are required in each and every sphere of life.

The youths of our society today eat a lot of junk food and look old before time. Their poor health is also cannot contribute to the growth of our nation. Therefore to overcome all these problems not only youth of the society but everyone should do exercises in order to stay fit and healthy and contribute to the growth of our nation.

Exercises are really important for students and therefore nowadays in every school and colleges, special classes are organized for physical exercises. Sometimes high & trained professionals also visit the schools and collage to teach the students the physical exercises. For students are as important their studies. Physical exercise training opportunities are also nowadays offered in off.

Report: Lecture on Menstrual Hygiene for Female Students

Introduction:

College organized a comprehensive lecture on menstrual hygiene for female students on 25th January 2019. The initiative aimed to educate and empower students with essential information regarding menstruation, hygiene practices, and menstrual health management.

Objectives:

1. To provide accurate and reliable information about menstruation and menstrual hygiene.
2. To address myths, misconceptions, and stigma surrounding menstruation.
3. To promote proper menstrual hygiene practices and menstrual health awareness among female students.
4. To equip students with the knowledge and resources necessary for maintaining menstrual health and well-being.

Lecture Highlights:

The lecture, conducted by Dr. Sneha Ayyar, an expert in reproductive health, covered various topics related to menstrual hygiene. It commenced with an overview of the menstrual cycle, explaining the physiological changes that occur and the significance of menstruation in women's health. The speaker addressed common myths

associated with menstruation, emphasizing the importance of dispelling misinformation and fostering a supportive environment for open discussions.

Practical guidance was provided on menstrual hygiene practices, including the proper use and disposal of menstrual products, such as sanitary pads. Students were educated on the importance of maintaining personal hygiene during menstruation to prevent infections and discomfort. Additionally, the lecture highlighted the significance of access to clean water, sanitation facilities, and affordable menstrual products for ensuring menstrual health and dignity.

Interactive sessions allowed students to ask questions and share their experiences, facilitating an open dialogue about menstruation and related concerns. The lecture concluded with the distribution of informational pamphlets and resources on menstrual hygiene, empowering students with practical knowledge to make informed decisions about their menstrual health.

Outcomes:

The lecture received positive feedback from participating students, who expressed appreciation for the valuable information provided. Many students reported gaining a better understanding of menstruation and feeling more confident in managing their menstrual hygiene. The initiative contributed to breaking the silence surrounding menstruation and fostering a supportive environment for female students to address their menstrual health needs.

Health and Blood Pressure Check-up Camp for Female Students

Introduction:

On 27th September 2018, College organized a Health and Blood Pressure Check-up Camp for its female students. The initiative aimed to promote health awareness and ensure the well-being of the students, addressing specific concerns related to hypertension, anemia, and general health.

Objectives:

1. To assess the overall health status of female students.
2. To screen for hypertension (H.B.) and anemia (R.B.C.).
3. To educate students about the importance of regular health check-ups and healthy lifestyle choices.
4. To provide necessary medical advice and interventions for students with identified health issues.

Camp Activities:

The camp commenced at 10.30 a.m and lasted until 1.00 P.M., accommodating 111 of female students. Trained medical professionals conducted comprehensive health screenings, including blood pressure measurements and blood tests for hemoglobin levels. Educational sessions were conducted to raise awareness about the risk factors associated with hypertension and anemia, emphasizing preventive measures and healthy living habits. Additionally, personalized consultations were offered to students with abnormal health parameters.

Recommendations:

1. Encourage regular health check-ups among students to monitor blood pressure and hemoglobin levels.
2. Implement health education programs to promote healthy lifestyle habits, including balanced nutrition and stress management.
3. Provide access to healthcare resources and support services for students with identified health concerns.
4. Organize periodic health camps to sustain awareness and monitor the effectiveness of interventions.

Conclusion:

The Health and Blood Pressure Check-up Camp served as a proactive measure to safeguard the health and well-being of female students at College. By identifying prevalent health issues and offering guidance on preventive strategies, the camp contributed to promoting a culture of health consciousness and empowerment among the student community.
